

## COACHING AND DEVELOPMENT PROGRAMME IN REGULATORY COMPLIANCE

Our **Regulatory Compliance** Coaching and Development Programme is ideal for individuals looking for a solid understanding of regulatory compliance principles locally and internationally, with practical application.

The programme is offered as a **credit and non-credit** based programme over a 14-day flexible period.

The Credit based programme allows learners to register for the Certificate in Compliance course offered by the International Compliance Association and accredited by the **University of Manchester** in the UK.

### Programme Outline

#### Part 1: Coaching and Soft Skills

Learners develop their soft skills by teaming up with a **behavioural coach** who will work with them to understand their strengths and identify areas for development.

- NLP and behavioural psychometric assessments (online one on one sessions with a behavioural coach)
- Soft skill programmes: Building your personal brand, Power to influence, Change management, Collaboration and Resilience (2- day game-based bootcamp)

#### Part 2: Compliance Technical Skills

Learners develop their **technical skills** by participating in compliance related workshops which are designed to provide learners with a comprehensive overview of compliance management with practical application.

- Introduction to compliance management and the Generally Accepted Compliance Practice
- The roles and duties of a compliance officer
- Formulating a vision and strategy for compliance
- The regulatory universe
- Risk identification, assessment and measurement
- The control environment
- Formulating a compliance coverage plan
- Risk based compliance monitoring 101
- Drafting compliance reports and dashboards
- Understanding artificial intelligence and their use in compliance management
- Introduction to risk management and the use of risk management principles to manage regulatory risk
- Project management basics
- Practical case studies and group work

### Part 3: Submission of a compliance project

Submission of a compliance report based on a topic selected by the learner's employer.

Your facilitation team consists of:

- Behavioural and Transformational Coach
- Regulatory Specialist
- Personal Mentor
